SC-03331/69  
IHC-MM-41  
24 January 1969

MEMORANDUM FOR: Chairman Intelligence Guidance Subcommittee

SUBJECT: SIGINT Information Handling

1. Attached are the Staff's suggested changes to the IGS draft guidance. The changes have not been approved by the IHC.
2. The Staff is providing these changes with the understanding that they are in draft form subject to change depending on your printing and coordination cycles.
3. This memorandum may be downgraded to Confidential upon removal of attachment and physical removal of the caveat.

Executive Secretary

called — he said he was going to announce to his subcommittee that he was briefing the SD&O tomorrow. He asked whether members of the IGS ~~should~~ could come — I said that I would prefer that they not come for two reasons:

- (1) He can say what he wants without being checked by the IGS (he said ~~this~~ this didn't matter to him)
- (2) Inasmuch as many of the SD&O people were new, if the room has more strangers in it this might inhibit them from asking questions — there is already enough inhibition with the Group as evidenced last week.

25X1

express that I have a good point on (2) above.

[ ] (For your info)

Reviewed the CCP Subelement 17 papers and noted the following which I had not known before:

25X1A

1. [ ] as PCI Rep on CCP Review Group/recommended phased increase of processing manpower of something on order of 25% per year begins FY70 is recommended in order to implement formatted reporting of air activity information in accordance with "planning to be developed by the USIB Information Handling Committee..."

2. Review Group wants resource levels maintained until "NSA resource requirements for this purpose are refined and reviewed by OSO."
